

NEW PERSONA BASED ASSESMENT BUNDLE

Prove your workforce is AI-ready. With evidence, not assumptions.

70% of AI initiatives fail because leaders mistake tool access for capability. Verify AI readiness across every role, benchmarked against the industry's deepest dataset.

The AI Readiness Index Bundle gives executive leaders a defensible, board-ready baseline of AI capability across the entire organization.

✔ From AI hype to verified capability

Self-reported surveys and course completions don't offer real answers. The AI Readiness Index Bundle replaces guesswork with performance-based data, turning AI training into a defensible metric.

👤 Built around how people actually use AI

AI capability isn't a one-size-fits all. A sales rep, a product manager, and an ML engineer require entirely different fluencies.

5

Enterprise AI personas spanning frontline to C-suite

⚡ Actionable insights in weeks, not months

- ✔ Establish your AI readiness baseline immediately with an easy-to-deploy enterprise assessment.
- ✔ Built for speed and accuracy, this bundle delivers a clear, company-level measurement without the extra administrative lift.

10

Signature assessments included in the bundle

100+

Additional signature assessments unlocked in the Workera catalog

☰ One Index. Every Function. Every Level.

Align your leadership team with a single, workforce-wide AI Readiness Index, then drill down into specific cohorts to eliminate skills gaps.

The AI Readiness Index Bundle

Course Completions Don't Prove Capability.

Verify AI proficiency the way it actually shows up in work, across five role-based tracks, from foundational fluency to executive stewardship.

Literate

Non-technical AI users

SIGNATURE CAPABILITIES

Generative AI Essentials

Agentic AI Fluency

TARGET ROLES

- Recruiters
- Sellers
- Marketers
- Customer Ops
- Finance
- HR
- Frontline
- Operations Staff

Practitioner

Hands-on solution builders

SIGNATURE CAPABILITIES

Beyond LLMs: Prompts, Agents & RAG

Agentic AI Engineering Fundamentals

TARGET ROLES

- Product Managers
- Product Designers
- Project Managers
- Solutions Architects
- Operations Managers
- Team Leads
- Forward Deployed Engineers

Engineer

Technical software creators

SIGNATURE CAPABILITIES

Prompt Engineering for Developers

Agentic AI Engineering in Practice

TARGET ROLES

- Software Engineers
- Solutions Architects
- Forward Deployed Engineers
- AI Application Developers

Scientist

Advanced model developers

SIGNATURE CAPABILITIES

Deep Learning Advanced

Beyond LLMs: Prompts, Agents & RAG

TARGET ROLES

- Data Scientists
- ML Researchers
- AI Modellers

Steward

Executive strategic leaders

SIGNATURE CAPABILITIES

Agentic AI Fluency

AI Adoption for Leaders

TARGET ROLES

- Executives
- Department Heads
- Line Managers
- Compliance & Risk Leaders
- CAIOs
