

# The gold standard for measuring human potential

Workera is an agent-powered Skills Intelligence platform that verifies what people can do and turns that clarity into confident action — helping leaders act faster and fairer, with trust in every talent decision.

## Verify your workforce capabilities

**Elo**  
What do you want to measure?

I want to measure if my workforce is capable of adopting and applying Generative AI across roles and functions.

**AI Readiness Playbook – GenAI Adoption.pdf**  
18 MB

### Align

Turn your business strategy into verified skill programs ready to launch in minutes. Upload business logic and your desired outcomes and Elo, your AI mentor, will identify the skills that matter most.

**Talk to Elo**

### Measure

Reveal how learners think and solve problems through real-world challenges. Every score blends precise standards with expert validation, building skill signals you can trust.

**Workera**

Skills Composition

HRIS  
ATS  
LXP/LMS  
PMS

### Action

Power every talent decision with continuous capability insights in the flow of your work — from hiring, upskilling, project resourcing, performance management and internal mobility.

Level: Beginning    Level: Developing    Level: Accomplished

**Brittany Smith**  
Data Scientist    177

### Track

Turn capabilities into business impact. Track readiness, growth, and ROI by role, region, or program — your live, connected source of trust for skill intelligence.

”

“Workera’s approach represents a shift in how we measure skills — moving from static metrics to real-time skill verification.”

**Josh Bersin**, Global Industry Analyst

## Impact

**9M+**

Skills measured across global companies

**3X**

Faster upskilling vs one-size-fits-all learning
